WORK EXPERIENCE

Encore Capital Group - Midland Credit Management

San Diego

Business Analyst / ML Engineer

Full-time, Aug 2024 - Now

- Developed an XGBoost model to forecast 2025 collections by purchase year, using historical collection data and categorical features for each portfolio (seller, face value). Achieved <1% MAPE on training data for 2024 collections.
- Developed and deployed two XGBoost models with Python and PySpark on Azure to predict weekly digital and garnishment collections (<3% MAPE), leveraging historical trends and marketing activity (mail, email).
- Daily use of SQL on Microsoft SQL Server Management Studio to get relevant data for Investment Risk Management.

BearingPoint

Paris

Management Consultant

Internship, Feb 2023 – Jul 2023

- 3-month mission for a French transit company to pilot the management of a new train line.
- 2-month mission to pilot a French electric utility company's shift towards a new ERP tool across the teams impacted.
- Delivered 5 commercial propositions with Excel, Word, and PowerPoint deliverables.

Veolia

Dubai

Data Scientist

Internship, Jul 2022 – Dec 2022

- Built a Python ML tool with a Streamlit interface to predict mall energy consumption. Processes 80 features from an API and used cross-validation to optimize regression, saving analysts a month of work annually.
- Built a RNN to reduce by 35% HVAC usage in VOX cinemas, using temperature, rooms size and occupancy data.

EDUCATION

University of California, Berkeley

Aug 2023 - May 2024

Master of Engineering in Industrial Engineering and Operations Research

3.94 GPA

- Main courses: Machine Learning, Deep Learning, Statistics, Optimization, Risk Modeling, Simulation & Data Analysis, Financial Engineering, Intellectual Property, Project Management, Leadership

University Paris-Saclay (CentraleSupélec)

Sep 2021 - May 2024

Master of Engineering in Data Science

3.98 GPA

- Top 2 worldwide university in Mathematics & Top 12 globally (ShanghaiRanking), Top 2 French Engineering Schools
- Main courses: AI, Machine Learning, Deep Learning, Mathematics (Convergence, Probability, Statistics), Computer Science (Databases, Networks & Graphs, Object-Oriented Programming), Reliability & Industry, Physics

University Paris-Saclay (CentraleSupélec) & Janson de Sailly

Sep 2018 - Jul 2021

Bachelor of Engineering

3.93 GPA

- Ranked 132nd (top 1% nationwide) for the admission contest of CentraleSupélec (2020)
- Main courses: Mathematics (Algebra, Analysis and Calculus), Computer Science, Physics

PROJECTS

MyHoroscopeAI

Since 2024

- Developing a mobile astrology app with React Native and Node.js, featuring interactive charts and GPT-powered horoscopes, questions & compatibility insights. Handling full-stack development, API integration & backend structure.

Predicting next impactful scientists using machine learning (UC Berkeley capstone project)

2023-2024

- Developed classification and forecast models to predict inventor breakthroughs based on patents, publications, and citations. Trained on thousands of inventors, achieving 91% accuracy with boosting and a 48-paper MAE.

What recipes can I make with this picture of ingredients?

2021

- Developed a Python web app that analyzes a single photo of multiple ingredients using a VGG CNN to suggest relevant recipes. Identifies 70 ingredients and matches them to a SQL database of 50,000 scraped recipes from Marmiton.

TECHNICAL SKILLS

Languages: English (fluent), French (fluent), Arabic (fluent), Spanish (intermediate)

Programming: Python, SQL, Java, JavaScript, Node.js, React Native, HTML, CSS, Spark, Matlab, Simulink, Power Query

Tools: A/B Testing, Git, TensorFlow, PyTorch, Hugging Face, LLMs, Keras, Scikit-learn, Statsmodels, PySpark, Gurobi, Numpy, Pandas, Plotly, Streamlit, NLP, NLTK, Neural Networks, LSTM, GRU, ARIMA, SVM, Docker

EXTRA-CURRICULAR ACTIVITIES

Led teams to reconstruct destroyed buildings while volunteering for two summers for OffreJoie in Lebanon

2021 - 2022

Helped organize the first edition of the TEDx CentraleSupélec with the Genius CentraleSupélec student club

2021 - 2022

Provided weekly private lessons in mathematics and physics to a dozen students in middle and high school

2021 - 2022

Captain of a football team at Janson de Sailly for two years

2021 - 2022

Piano at the Claude Debussy Conservatory of Paris. Still playing regularly

Since 2007
